From: Cindy Pitts
Subject: Leasing Sites for Use as County Parks
Date: February 5, 1991

After doing some research I have found several sites that I would like for the County to enter into lease arrangements with for use as rural recreation facilities. The sites are as follows:

1. Gray Court - Vulcan Materials currently owns this land located on the eastern side of Dumpster Road (Watson Road). They have indicated a strong interest to the City of Gray Court and Laurens County to lease this land for the development of a park. This park may be jointly sponsored by the City of Gray Court and Laurens County.
2. Cross Hill - The Cross Hill Fire Department owns this site which is 4.16 acres located on South Church Street.
3. Hickory Tavern - The Hickory Tavern Youth Association owns 5 acres of land and currently has two youth ball fields in construction on this site. The Association is willing to lease this land to the county and still work to maintain and continue to ~~develop the site with a goal of having a small complex.~~ There is also additional land adjacent to this that could be acquired at a later date.

* County funded land payments.
