Verbal	Net 30	Andy Howard	Lighting Repairs

Quantity	Description	Price Each	Amount
1.00	Furnish turnkey expenses to troubleshoot and repair short atop of pole and (1) other fixture outage at Hickory Tavern; and repair pole outages at County Park per request of Andy Howard. Troubleshooting resulted in replacement of a Square D (600) volt contactor at Hickory Tavern (for T-ball field) but we could not access voltage due to blown 600 volt fuses. There were no other apparent problems with this pole. Also at Hickory Tavern we determined another fixture had a defective ballast but Andy asked us not to repair at this time. Repairs at the main Airport field consisted of rewiring (as best we could) (2) poletops that had wire melted together due to UV exposure and improper original installation techniques. Expense are as follows: Misc. 3m type 33 tape, 3m rubber splicing tape, and wire nuts.	14.85	14.85
5.75	Technicians Hipp and Drummond with 92 ft. bucket truck with tools - home base to return.	149.50	859.63

Thank you for the opportunity to meet your lighting needs!
