Lady and Gentleman,

Please see the attached draft preliminary performance review of the Department's posture on transparency. I am hoping you will provide some information that will show the Department's responses in a different angle. I am unable to ascertain any reason except defensive concealment, to refuse answering my questions on why the Department is not enforcing terms of the PARD agreement with Laurens County. Good faith mistakes can be fixed, and citizens such as myself are eager to help agencies with operations that can improve SC's state's rating as one of the most corrupt states in the country.

Lacking any further response from the Department, I will be publishing my review accordingly.

Sincerely,

Katrina Fay
