There's lots of free info on how to do financial management for non-profit business. You can't run a business without a budget. Otherwise it's a hobby or somebody's club. Here's a good site:

The 50 million dollar question - is it a business, or a club? If there's not enough juice to do the work a biz requires, close up shop and no worries. If you want to run it as a biz, then the business stuff needs to be done. HTYRA is supported with public dollars so it's not optional.
